

"The greatest development is achieved during the first years of life, and therefore it is then that the greatest care should be taken. If this is done, then the child does not become a burden, but the greatest marvel of nature."
- Dr Maria Montessori.

"To assist children, we must provide an environment which will allow them to develop freely. Their education therefore does not prepare them for school, but for life." - Dr Maria Montessori.

We look forward to welcoming you on-board.

“Do not tell them how to do it. Show them without saying a word. If you tell them, they will watch your lips move. If show them, they will want to do it themselves.”
- Dr Maria Montessori.

The Montessori approach values the human spirit and the development of the whole child. It focuses on the prepared environment which includes structure, order, freedom of movement and freedom of choice. Children learn to develop concentration, self-discipline and the love of learning.

Independence and Freedom are the cornerstones of the Montessori approach. More importantly, it does not discriminate amongst children but values each child as a unique individual. Children develop at their own pace and according to their developmental capabilities. Through the Montessori approach, we empower children to become confident, independent learners who are capable to go beyond their potential.
